## Profile

Computer Science student focused on building practical web applications and user-centered interfaces. Strong interest in frontend architecture, UI/UX systems, and real-world product design. Hackathon winner experienced in rapid prototyping and collaborative development.

## Education

**Boston International College** — Affiliated with Pokhara University 2024 – Present  
Bachelor of Computer System and Information Technology (BCSIT)  
**Aroma English Secondary School, Nepal** 2021 – 2023  
High School Diploma

## Projects & Hackathons

### Rupaiyaa — Personal Finance Mobile Application

LICT Hackathon 2024 — Best UI/UX Winner

Designed a finance tracker featuring bill splitting, shared expenses, and spending insights inspired by real fintech systems. Led UI flow and interaction design while contributing to frontend implementation.

### Parampara — Interactive Heritage Learning Platform

Nepathya Hackathon 2025 — Best UI/UX Winner

Built a gamified web platform presenting Nepal's history through interactive timelines, cultural archives, and community sharing features. Focused on usability, navigation structure, and visual storytelling.

### BIC Hackathon 2024 — Organizer

Supported Git workflows, repository management, and technical coordination across participating teams.

## Development Focus

Currently learning full-stack development using React and Django. Practicing responsive frontend systems, backend logic, REST APIs, and deployment workflows while improving debugging, version control, and interface design.

## Leadership & Activities

### Coordinator & Initiator — Boston Centre for Theater

Established and coordinated student theatre initiatives, managing events, participation, and creative collaboration.

### Workshop Lead — STEAM Aroma

Conducted workshops on coding fundamentals and digital literacy, promoting problem-solving and teamwork.

### Organizer — BIC International Research Conference 2025

Assisted in coordination, logistics, and execution of an academic research conference.

## Technical Skills

**Languages:** Python, JavaScript, HTML, CSS

**Frameworks:** React, Django

**Tools:** Git, GitHub, VS Code, Figma, Canva

**Concepts:** UI/UX Design, REST APIs, Data Handling, Collaboration

## Training and Certifications

---

React and Django Development — Intelzy (2024)

HTML and CSS In-Depth — Coursera (2023)

Graphics Designing — Boston International College (2024)

Project Management — Google (2022)
